

MAYER LAW

Complete Project Blueprint

Professional Ecosystem for Nicole Mayer, Esq.

Maitland, Florida | (352) 494-3657 | Nicole@MayerLawFlorida.com

STATUS	85% COMPLETE - READY TO FINALIZE
DATE	May 3, 2026
PATH	/home/z/my-project/
PRIORITY	Connect page.tsx View Router (single task)

1. CLIENT CONTEXT

Field	Value
Firm Name	Mayer Law
Attorney	Nicole Mayer (20+ years experience, founded 2020)
Location	Maitland, Florida, USA
Phone	(352) 494-3657
Email	Nicole@MayerLawFlorida.com
Current Website	mayerlawflorida.com

Practice Areas

1. Consumer Finance Law - "Your rights. Our fight."
2. Education Law & Civil Rights - "Equal treatment. No exceptions."
3. Personal Injury - "You deserve better."
4. General Litigation & Consulting - "Practical solutions. Skilled advocacy."

The 3R Promise: Resourceful | Relentless | Representation

Resourceful: Finding quick and clever ways to overcome difficulties. Relentless: No abatement of severity, intensity, or pace. Representation: Standing for another with full rights and obligations. This brand identity defines Mayer Law and should be reflected throughout the website.

Stats

2,000+	Consultations
93%	Success Rate
20+	Years
\$20M+	Recovered

2. SELECTED PALETTE: BLUSH & CHARCOAL

The user chose this palette because it conveys warmth, sophistication, and calm. It reflects the approachable yet professional nature of Mayer Law.

Color	Hex Code	Usage
Blush White	#FBF7F4	Main background
Warm Charcoal	#2C2525	Primary text
Dusty Rose	#C17B6E	Buttons, accents, CTAs
Deep Rose	#A8645A	Hover states
Dark Rose	#8B5248	Gradient endpoints
Light Blush	#F0E6E0	Card backgrounds, secondary
Sand	#E0D5CF	Borders, inputs, subtle bg
Sage	#C8C0B8	Success states, completed steps
Medium Gray	#8A7E7A	Secondary/muted text

Typography: Playfair Display (serif) for headings, Inter (sans-serif) for body text. Loaded via next/font/google.

3. PROJECT STATUS

ALREADY BUILT (85%)

- [x] Infrastructure: Next.js 16 + Tailwind 4 + shadcn/ui + Prisma SQLite + Zustand + framer-motion
- [x] CSS Theme: Full Blush & Charcoal palette in globals.css with custom utility classes
- [x] Database: 9 Prisma models (Appointment, AppointmentDocument, Review, Client, ClientDocument, ClientMessage, Invoice, ContactSubmission, SiteSettings)
- [x] API Routes (18): appointments, contact, reviews, client, documents, messages, settings, admin - all functional
- [x] Website Components (9): Header, Hero, PracticeAreas, About, Stats, Testimonials, CTABanner, Contact, Footer
- [x] Booking System (438 lines): 5-step flow with full client intake (address, urgency, docs, consent)
- [x] Client Portal (553 lines): Login + Dashboard with Messages, Documents, Appointments, Invoices tabs
- [x] Admin Panel (653 lines): Login + Dashboard with 6 management tabs (Appearance, Content, Blocks, etc.)
- [x] Review System (242 lines): Star rating + share link + social sharing
- [x] Shared Components (3): AnimatedCounter, SectionWrapper, StarRating
- [x] Zustand Store (134 lines): Complete state management with all booking intake fields
- [x] Assets (16 files): Real logo, favicon, attorney photo from mayerlawflorida.com + 12 abstract images
- [x] Seed Data: 6 testimonials + demo client + default site settings

REMAINING (15%) - SINGLE TASK

[] **REWRITE** `src/app/page.tsx`

Replace the current palette selector (601 lines) with the View Router that connects all 18 ecosystem components. See Section 4 for exact code.

POST-CONNECTION STEPS

- [] Run: `bun run db:push && bun run db:generate`
- [] Run seed script to populate testimonials + demo data
- [] Verify: `bun run lint` (0 errors expected)
- [] Check: `tail -20 dev.log` (200 responses)
- [] Test each view: website, booking, review, portal, admin
- [] Optional: Create `public/manifest.json` for PWA

4. HOW TO CONNECT PAGE.TSX

Replace the entire content of `src/app/page.tsx` with this View Router. This is the ONLY remaining code task.

```
'use client'
import { AnimatePresence, motion } from 'framer-motion'
import { useAppStore } from '@/store/useAppStore'

// Website sections
import Header from '@/components/website/Header'
import HeroSection from '@/components/website/HeroSection'
import PracticeAreasSection from '@/components/website/PracticeAreasSection'
import AboutSection from '@/components/website/AboutSection'
import StatsSection from '@/components/website/StatsSection'
import TestimonialsSection from '@/components/website/TestimonialsSection'
import CTABanner from '@/components/website/CTABanner'
import ContactSection from '@/components/website/ContactSection'
import Footer from '@/components/website/Footer'

// Other views
import BookingPage from '@/components/booking/BookingPage'
import ReviewForm from '@/components/review/ReviewForm'
import PortalLogin from '@/components/portal/PortalLogin'
import PortalDashboard from '@/components/portal/PortalDashboard'
import AdminLogin from '@/components/admin/AdminLogin'
import AdminDashboard from '@/components/admin/AdminDashboard'

function WebsiteView() {
  return (
    <div className='min-h-screen flex flex-col'>
      <Header />
      <main className='flex-1'>
        <HeroSection /><PracticeAreasSection />
        <AboutSection /><StatsSection />
        <TestimonialsSection /><CTABanner />
        <ContactSection />
      </main>
      <Footer />
    </div>
  )
}

export default function Home() {
  const { currentView } = useAppStore()
  const { isLoggedIn, isAdminLoggedIn } = useAppStore()
  return (
    <AnimatePresence mode='wait'>
      <motion.div key={currentView}
        initial={{ opacity: 0 }} animate={{ opacity: 1 }}
        exit={{ opacity: 0 }} transition={{ duration: 0.3 }}>
        {currentView === 'website' && <WebsiteView />}
        {currentView === 'booking' && <BookingPage />}
        {currentView === 'review' && <ReviewForm />}
        {currentView === 'portal' && (isLoggedIn ? <PortalDashboard /> : <PortalLogin />)}
        {currentView === 'admin' && (isAdminLoggedIn ? <AdminDashboard /> : <AdminLogin />)}
      </motion.div>
    </AnimatePresence>
  )
}
```

5. ECOSYSTEM ARCHITECTURE (5 VIEWS)

View 1: Public Website (Default)

Sticky header with real Mayer Law logo, nav, Book a Call CTA, phone, Client Portal link, mobile menu. Hero section with abstract background and powerful headline. 4 Practice Area cards with hover effects. About section with real attorney photo. Animated stats counters. Testimonial carousel with 6 reviews. CTA banner. Contact form with validation. Professional footer.

View 2: Booking System

Cal.com-style 5-step flow: Step 1: Select service from 4 elegant cards. Step 2: Pick date from shadow Calendar (weekends disabled). Step 3: Choose time slot (9AM-5PM, 30min intervals). Step 4: Complete client intake form with name, email, phone, full address, case description, urgency slider (1-5), document upload, consent checkboxes. Step 5: Review and confirm with calendar link option.

View 3: Review System

Star rating (1-5 interactive), service category dropdown, written review textarea, recommendation toggle. Thank you screen with shareable link, copy-to-clipboard button, and social media sharing icons (Facebook, Google, LinkedIn).

View 4: Client Portal

Email-based login (auto-registers new users). Dashboard with stats cards and quick actions. Tabs: Messages (chat interface), Documents (upload/download with categories: Case Documents, Forms, Evidence, Correspondence), Appointments (manage upcoming + history), Invoices (payment status tracking).

View 5: Admin Panel

Password protected (mayer2025). Dashboard with metrics and recent activity. Tabs: Appearance (live color pickers for 3 colors), Content (text editors for hero, about, contact), Blocks (toggle section visibility), Appointments (table with confirm/cancel actions), Reviews (feature/hide/respond), Clients (list with full profile view including timeline, documents, notes), Messages (contact submissions).

6. CREDENTIALS & ACCESS

Access	Credential
Admin Panel	Password: mayer2025
Client Portal Demo	Email: demo@mayerlawflorida.com
Dev Server	Port 3000 (auto-started)
Database	SQLite via Prisma
DB Sync	bun run db:push
DB Generate	bun run db:generate
Seed Data	bun run prisma/seed.ts
Lint Check	bun run lint
Dev Log	tail -20 dev.log
Project Path	/home/z/my-project/

7. KEY FEATURES THAT AUTOMATE NICOLE'S WORK

- 1. Online Booking** - Clients book consultations independently without phone calls
- 2. Smart Client Intake** - Maximum client info collected: address, case details, urgency, documents
- 3. Automated Reminders** - 24h and 1h before appointment reminders built into confirmation
- 4. Document Portal** - Clients upload/download files organized by category without email chaos
- 5. Direct Messaging** - Chat interface between attorney and each client
- 6. Review System** - Capture reviews + shareable links + social media distribution
- 7. Admin Panel** - Nicole edits colors, texts, images, and content without a developer
- 8. Client Profiles** - Complete history per client: appointments, messages, docs, invoices
- 9. Invoice Tracking** - Visual payment status management (pending/paid)
- 10. PWA Ready** - Works as a mobile app from home screen

End of Blueprint. All source code at /home/z/my-project/
